

## The Dazzling Doodles' Health Warranty

**Buyer's Name and address:**

Puppy Name:	Breed:	Sex: __M __F __Neutered
	DOB:	Color:
Dam:	Sire:	

We do our absolute best to ensure that our puppies are in good health at the time they travel to their new homes. This puppy is guaranteed to be in good health. The puppy has been examined by a licensed veterinarian and to the best of the veterinarian and sellers knowledge and belief, your puppy is not showing signs of infectious, contagious, and/or communicable disease. The animal appears healthy at the time of sale.

If your puppy should die within the first year of life from a genetic based reason, you are required to provide written documentation by your DVM to my DVM (Dr. Lyle Mattson), stating the genetic condition. In professional agreement, a replacement puppy of your choice will be provided OR the purchase price of puppy (not including shipping costs) will be issued within 6 months of incident. If this puppy is found to be in ill health within one year of the date of sale, upon receiving written documentation from your DVM, we will take back the puppy and refund you 100 percent of the purchase price; however, you will not get a refund and also get to keep the puppy. Under no situation will we pay for any vet bills you incur. These are to be paid at your discretion and the professionalism and ethics of your DVM. This puppy must be seen within 5 business days for this warranty to be applied. Within your puppy packet there will be a complete health record and a vet certificate of health (for puppies traveling out of state) for your DVM to review. We give no refund if your puppy eats any hazardous plants, food, objects, medicine, poisons, gets hit by any vehicle, or runs away.

This warranty does not cover any worms or parasites, as worms are very common and your puppy has been heavily dewormed to keep them under control. Ask your vet about alternative medications for parasites. Please do not be alarmed if your puppy has contracted one. We do our best to prevent things such as Giardia, Coccidiosis, and other parasites, as you can see by studying your puppy's health record. We give no guarantee on coat color or quality, as coats may, or may not change as puppies mature. We do not cover potential problems associated with

## The Dazzling Doodles' Health Warranty

under-bites or overbites as we cannot predict growth. The buyer must agree to provide veterinarian care for his/her puppy including annual heartworm checks and preventatives and to keep vaccinations current. Please choose a veterinarian wisely. You want good but affordable health care for your puppy.

Sometimes puppies will refuse to eat or drink upon arriving at their new home. It's normal, given the fact that he/she has just had a stressful trip in a car or plane, and is adjusting to new surroundings, new family, and may be missing their siblings and mom. If your new puppy should show any signs of lethargy please contact us as we will be glad to help you determine the problem. You can prevent hypoglycemic shock by rubbing honey on its gums. You can also put a little pedialyte into its water in order to help keep them hydrated. We also feed some canned dog food, which they hardly refuse. Use either Diamond Natural in the can or Pedigree (Chopped beef, liver, chicken flavor) by adding two tablespoons on top of your puppy's dry ration. Refer to our website at [www.thedazzlingdoodles.com](http://www.thedazzlingdoodles.com) for Nutrisource feeding guidelines and other good information about potty and crate training under the "About" tab. Do not restrict your puppy's water intake, including at night. Restriction of water can lead to your puppy becoming dehydrated, increasing its chances of becoming ill.

Buyer agrees to the responsibility of making sure this puppy's daily needs are met; making sure he/she is kept groomed regularly, fed and watered a reasonable/recommended amount on a daily basis, and to keep him/her in healthy conditions. Failure to comply with and provide documentation of the above requirements voids this warranty. Hypoglycemic Shock and death is covered within 72 hours of leaving our premises. If your puppy were to die as a result from Hypoglycemic issues within 72 hours, we will refund the purchase price of the puppy, but no delivery cost. Vet bills treating this condition are not covered.

Look inside your NutriSource folder for a microchip card which states phone number and website in order to register your puppy's chip. This is very important, as some of our customers have lost their puppy's and if you don't register the chip you will not be able to be identified as the owner. Thank you for choosing The Dazzling Doodles to provide you with your new treasured family member. We have enjoyed working with you and are always here if you should have additional questions.
